Farm Menu for People & Plants

Organic Food for your Health & Energy

Grown with native organic materials

Fruits

- Perennials established: Blueberries, Mint, Pear, Plum. Planted since 2017: Fig, Apple, Pear, Plums, Peach, Nectarine, Blackberries, Muscadine, Pawpaw. Planned: Strawberries....
- Annuals Planned: Watermelon, Cantaloupe, Pumpkin.
- Growing in Old Orchard (eaten by wildlife): Persimmon, Chestnut.
- Possibilities: Farm Fresh eggs, _____ (tell us your interests).

Veggies

- Plan: Okra, Cucumber, Squash, Tomatoes, Bell pepper, Eggplant, Snow peas
- Horses love these: Okra leaves, Carrots, Cucumber, Corn, Watermelon...
- Considering: Spinach, Sweet Potatoes, Beans, Asparagus...

Plants, Trees, and Seeds

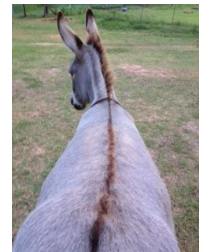

(limited supply)

- Heirloom seeds and plants: Crawford "Tree" Okra, moon flower...
- Second Chance Trees: oak, cedar, pine (harvested from pasture & tree line instead of cut)
- Jumbo Elephant Ears (original tubers from grandmother's farmhouse--Slocomb)
- Banana Trees (grown and shared 20+ years, originals from parents' Lay Lake home)
- Mint—repels fleas, smells great, tastes good in beverages, useful as mint hay near plants...)
- Firewood: oak logs split, round, or mixed. Also, fire pit wood for outside fires (pine...)

Aged Equine Fertilizer: *Patriot's Poop*

(Horses and "Jerusalem Donkeys")

- In 50# recycled horse feed bags or your container
- ◆ Feed: grass, hay + snacks: veggies, fruit, grain
- ◆ Drink pond water & city water in troughs
- ◆ No chemical de-wormers or medicines > 1 year

Seminars, Workshops, Services

- *Agricultural Sustainability and Personal Environmental Leadership (includes planbook)*
- *Coaching for new growers: starting a garden or homestead, low cost ways to grow...*

Your Options

- 1) U Pick Saturday (call so we can have the gate open for you).
- 2) Meet for delivery: M-F: Public place in Montevallo, Calera... Sunday pm: Columbiana, Shelby
- 3) *Donate for deduction and help Life Leaders Farm give healthy food to nonprofit partners helping people or animals (homeless veterans, foster families, women & children) and teach.*

Know Your Farmer's Practices for Providing Your Food—Triple D Plan

- ◆ Planted and harvested by hand.
- ◆ Use natural, sustainable practices to enrich/fertilize soil for better nutrition (sometimes less "pretty")—leaves, grass clippings, kitchen compost, aged manure, twigs, wood chips)
- ◆ Insect control: mint in dog & cat gardens, testing dust with food grade Diatomaceous Earth.
- ◆ Weed control: wood chips, leaves, surface tilling when we must.
- ◆ Pesticides: No harmful chemicals used that can get absorbed into food and you.
- ◆ Fertilizer: No synthetics added.
